We are a Swiss SME based in the canton of Jura. We specialize in the development and construction of heat treatment plants. Our products are mainly intended for export.

At CODERE AG, our goal is to become a trusted partner for our clients, suppliers, and employees. Mutual communication built on trust, respect, and reliability forms the foundation of these relationships.

To support the successful growth of our company, we are looking to hire, as soon as possible, a :

Automation Engineer (m/f)

YOUR MAIN RESPONSIBILITIES

- Participate in the machine design process alongside the technical management team
- Project cost estimation
- Develop programs and related user manuals
- Commission machines in collaboration with other departments
- Install and restart machines on-site, as well as train customers
- Provide customer support, both remotely and on-site if necessary
- Stay up to date with technological advancements and market trends

YOUR PROFILE

- Proficiency in Siemens TIA Portal and WINCC
- Experience in the industrial sector, particularly in electricity
- Knowledge of Beckhoff PLCs (a plus)
- Experience with SCADA Citect (Schneider Electric) appreciated
- Ability to work independently while collaborating effectively within a team
- Strong industrial background
- Willingness to travel
- Languages: Fluent English required – German preferred (or another language such as Italian or Spanish)

WHAT WE OFFER

- Comprehensive training at our facility in Switzerland
- Ongoing coaching to develop your skills
- Modern social benefits
- Flexible working hours

We offer you the opportunity to join a dynamic company where each project is a new challenge. You will work in an international environment, interacting with well-known companies. You will benefit from a modern workspace within a motivated team of specialists.

Interested candidates are invited to submit their complete application file by email to: e.arifi@codere.ch.
